Response to Amendment

This office action is responsive to Applicant's amendment received on October 18, 2004. Claims 29-33 have been added. Claims 1-33 are pending.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-19, 24-27, and 29-33, drawn to an authentication method, classified in class 713, subclass 168.
- Claims 20-23 and 28, drawn to particular algorithmic function encoding or cryptographic information necessary for authentication, classified in class 380, subclass 28 or 249.

The inventions are distinct, each from the other because:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because other technologies are known to be used for authentication. The subcombination has separate utility such as particular algorithmic function encoding or cryptographic information necessary for authentication.

Art Unit: 2131

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. William W. Schaal on Friday Jan 14, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made, and any suggestion as for the possibility of the allowance in regards to Group I has been resulted from a miscommunication.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arezoo Sherkat whose telephone number is (571) 272-3796. The examiner can normally be reached on 8:00-4:30 Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on (571) 272-3795. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
